| Average permit processing cost per week | \$ | \$ |

| | Per week | Per Year |
|--|----------|----------|
| ROI : Average savings for a typical sized town after implementing ADM-municipal software | \$ | \$ |

Other intangible benefits to the town are:

1. Convenience to residents - allowing them apply and pay for permits and licenses online, off hours and from home.
2. Streamlining the permit processing process there by reducing chances of approval by default
3. Auto-pay allows permit fees immediately be debited directly into town's account thereby earning interest to the town
4. Economic Development within the community with streamlined permitting process to attract businesses
5. ADM-municipal is a green solution, for sustainability and conservation of trees
6. Eliminates the need for multiple paper copies reducing the cost for copying and storing, approved permits.
